

2026 INTERNATIONAL SCHEDULE OF FEES

Version Date: 28 May 2026

This fee schedule sets out the tuition and non-tuition fees payable by international students for subjects undertaken during 2026. International students who withdraw from a subject ahead of the relevant start date will not be charged a tuition fee for that subject.

Ikon offers international students Pay-by-Trimester and Pay-by-Month (continuing students only) payment options. Continuing students can select their preferred payment option ahead of the start of each trimester. The change of payment option request form must be submitted no later than 3 weeks prior to the start of the teaching period of the relevant trimester.

Unless otherwise stated, all subjects are delivered in accordance with the study period dates published on the [Ikon Important Dates](#) page. Some subjects will only be offered if there is sufficient student demand at the respective campus location.

Future Study Periods

Ikon updates its fee schedule in September of each year for the following academic year. An update to this schedule will then be published for the following academic year. Fee increases are typically implemented each year to cover increased delivery costs. Course costs are expressed by Ikon as indicative only and subject to change, but once published, subject tuition and non-tuition fees remain in place for a 12-month period.

If a student enrolls into subjects that are due to be delivered beyond the period of the current fee schedule (e.g. beyond 2026), such students should be aware that the tuition fees for that period will have its own schedule, that relates to that time period.
